

Genesis Aviation, Inc.

Warranty Policy

Genesis Aviation, Inc. Warrants that its overhaul and repair services on the units listed in the "Proposed Rates" section be free from defects in workmanship. Liability under this Warranty shall be limited to units returned within the specified Warranty periods and to the labor and parts used in the service performed by Genesis to the extent of the parts manufacturer's Warranty. Warranty period shall start from the completed date on the 8130.

UNITS COVERED: Mechanical, Pneumatic, Hydraulic, Electrical, Electro-mechanical, Avionic and Electronic.

OVERHAULS: Warranty for workmanship on overhauled units is for twelve (12) months or 1200 hours from the date of installation, whichever shall occur first. This Warranty covers labor and parts previously replaced by Genesis Aviation, Inc. at time of overhaul.

REPAIRS: Warranty for workmanship on repairs is six (6) months or 600 operating hours from the date of installation, whichever shall occur first. This Warranty does not give full coverage on ANY failure during this time period, but is limited to the repair or replacement of the parts and/or sub-assemblies replaced during the service action.

BENCHCHECKS: On units that are only bench tested and found to be within the manufacturer's specifications, there will be no warranty implied.

**ELECTRONIC/
the AVIONIC
COMPONENTS** Electronic & Avionic components are tested and their function verified at the time of test. There is no way to verify service life of an electronic/avionic component without destroying it. Therefore it is Genesis Aviation's policy to warrant only the electronic/avionic components replaced at the time of repair or overhaul.

NO FAULT FOUND: If a unit is returned for Warranty and found to meet all of the manufacturer's test specification, the customer will be responsible for the bench test and recertification charges.

LIMITATIONS: There shall be no obligation if any attempt is made to repair, or if unit(s) show evidence of tampering, mishandling, misuse, abuse, damage or accident. All warranty repairs must be performed by GENESIS or no warranties, expressed or implied shall be applicable.

GENESIS AVIATION, INC. shall have no liability whatsoever for consequential or incidental damages or for loss, damages or expense, direct or indirect, from the use of units processed by this repair station.

WARRANTY CLAIM PROCEDURES

All returns must be shipped to GAI, all transportation charges prepaid, packed in the original or comparable packing, and shipped via a reliable source.

Components or Assemblies returned must be clearly marked as being subject to Warranty consideration.

Customer will provide to GAI a detailed written description of the claimed Warranty, to include:

- Installation Date
- Date of Failure
- Hours/Cycle of use from installation to removal or occurrence.
- Description of the nature of the failure
- Aircraft Tail Number (if component was installed on an aircraft)
- Handling or Packaging Damage (photograph damages if possible)

GAI will, at its option, either repair or replace any properly claimed Warranty item that is found to be defective as soon as practical after receipt of such components. GAI shall not be responsible for any removal or re-installation costs incurred by the Customer incident to such repair or replacement.

In the event that GAI repairs or re-services an item under this Warranty, the Warranty provided herein shall extend to such repair or re-serviced item for the remainder of the original Warranty period applicable to the item and no new Warranty period shall be established.
